Subject: horses on Caouette land

I am a resident of Maple Street in Acton who lives down the street from the Caouette land. I have been a big supporter of the farm and most recently the effort to save the land from development. As you decide how to use the land, I would like to put in a request to allow horses on the property. With the Simeones' permission, horses have been using the other fields of Stonefield Farm for over 13 years. They are respectful, and always walk quietly around the perimeter of the fields. I hope they will be able to continue to do so.

Thank you.
